

Board of Advisors - The pinnacle of leadership and involvement

Throughout history, the title of *pillar* has been reserved for those individuals and businesses whose leadership has shaped communities and set the standard for others to follow. Therefore, designation as a Chamber Pillar (a member of the Board of Advisors) has become our highest level of membership. Membership in the group demonstrates a company's extensive commitment to Wilmington and provides the member the opportunity to assist the Board of Directors in making critical policy decisions.

An annual dues investment of \$1,000 or more qualifies a member company to be a part of the Chamber Pillars. As one of the Chamber Pillars you will join other visionary leaders who contribute to the ideas and actions that set the goals of the organized business community. In addition to high-profile exposure for you and your business, you will receive numerous benefits:

Exclusive Access

- Participation in two Board of Directors meetings per year
- Invitation to attend the Board of Directors' annual planning retreat to help formulate the program of work for the coming year
- Breakfast meetings with the Chamber President & CEO to obtain input on important issues affecting the community
- Participation in Board-level committees
- Access to special meetings and events
- Priority seating at events
- Receipt of VIP announcements and information
- Invitation to attend a holiday social event with Board and select group of volunteers

Special Recognition in Publications

- Featured listing in the Annual Report/Program of Work
- Featured listing in the Membership Directory
- Featured listing in the Chamber leadership section of the website

Incentives

- Free admittance to any Chamber seminar
- Special VIP nametag for use at Chamber events
- Priority use of the Chamber board room

Become a Chamber Pillar.

We are seeking visionary leaders to ensure continued strength in our Chamber programs that would benefit from the high-profile exposure and powerful networking opportunities with other business, community and government leaders.
